1. RATIONALE

The need to put in place a robust grants administration and management system to enhance the implementation of research in the university in order to achieve the theory of change, that aligns with the stakeholder's expectations is of strategic intervention. The development of these guidelines is anchored on existing policies, and their adoption is crucial for realization of efficient operations and elevation of the research and innovation pillar. This document provides guidance to faculty grant administrators, principal Investigators, teams, grants management unit and University Management by ensuring that standard operating procedures are adhered to.

2. INTRODUCTION

Mountains of the Moon University is in the early stages of concretizing the operationalization of the Graduate Studies Policy (2024), Research and Publication Policy (2024), the Research Agenda (2023-2028), among others. It is envisaged that these guidelines will reinforce the provisions in the governing policies, Acts and Laws, and bring about clarity in the value chain of grants management. The guidelines will apply to both external and internally funded projects unless otherwise exempted.

3. SITUATIONAL ANALYSIS STATEMENT

Various units, individual scholars and the university management have been successful in soliciting and obtaining grants leading to a substantial grants' portfolio within MMU, which offer great opportunity for research and training. The development of these guidelines is therefore geared towards streamlining and leveraging on these efforts as well provide a supportive ecosystem for grants mobilization and management. The interpretation and implementation of these guidelines will be synergistic with other existing operational guidelines in the University.

4. SCOPE

The guidelines encompass the stages involved from the point of expression of interest in grant application, solicitation/award of grants, administration of actions prior to implementation, implementation, role played by various hierarchical stakeholders, reporting, monitoring and evaluation and final project closure.

5. STANDARD OPERATING PROCEDURES

The management of grants at the University shall not contradict policies and the relevant legal provisions governing the operations of the University as well as the financial manual of the University, the statutory instruments issued by Ministry of Finance and Economic Development, and the Public Finance Management Act 2015 (As amended).

The following Standard Operating Procedures (SOPS) shall be adhered to:

- a) The University shall declare the grants to the Ministry of Finance, Planning and Economic Development and the grants shall be included in the budgets of the faculty/Units that initiated the grant and overall University budget in accordance with existing laws, regulations, and policies.
- b) Each grant shall have an operation, monitoring, and closure plan to fit within the overall University plan.
- c) The staff who has a grant or project in the process of approval shall declare it to the University so that it is included in the budget estimates of the University.
- d) Proceeds from a grant innovation by a member of staff shall be shared between the University and the innovator in the ratio of 40%: 60%.
- e) Royalty sharing after commercialization of grant innovation shall be in the ratio of 20% and 80% for the University and the innovator (after the innovator ceases being member of staff of the University), otherwise the ratio in d) stands.

8. OVERHEADS/PROJECT ADMINISTRATIVE COSTS

The terms indirect costs, overhead costs, and administrative costs are synonymous. These costs relate to the use of an institution's facilities and administrative support but cannot be claimed as direct costs. Overhead costs are critical to implementation of institutional activities and are important for the success of institutional projects as well as for the institution hosting the project as they are incurred for common objectives within the institution.

While some funders/donors prescribe the percentage of the overhead to be charged on a grant, others allow for institutions to use their own rates, yet others simply do not allow over-head on a grant. For MMU to remain afloat in supporting grants, the charge on overheads/administrative rate is 10% of the grant amount as provided for in the Research and Publication Policy. Where the above percentage is not applicable and require a waiver or variation, University Council decision shall be sought through the Vice-Chancellor.

8.1 Project Overheads Distribution

Where overheads are allowable on a grant, the total collectable overheads shall be equated to 100% and follow the following distribution:

- a) Central Administration 40%
- b) Directorate of Graduate Studies, Research and Innovations 20%
- c) Grants management Unit 10%
- d) Relevant Faculty (s) 10%
- e) Relevant Department(s) 10%
- f) Principal Investigator 10% (Strictly for Research Support outside the budgeted items)

8.2 Funds Disbursement

The PI will channel his/her request through the Director GSRI then thru the Bursar to the Accounting Officer for approval. Where cheques apply, the Bursar and Accounting Officer shall be signatory to the cheques.

9. CONFLICT MANAGEMENT

In the event a person or stakeholder is aggrieved during implementation of a grant, he/she will write to the Vice Chancellor with substantial evidence for redress after exploring all other options within the hierarchy of the project administration and Management.

10. Review of the Guidelines

The Senate Committee of Graduate Studies, Research Ethics and Publications shall monitor and evaluate the implementation of the guidelines with a view of forming a basis for review.
